

# CAMP MIAKONDA

## NEW PROCEDURES FOR HEALTH & SAFETY

Updated 06-01-2020

### Before you arrive:

- All camp usage is by reservation only: pre-planned and pre-approved. Reservations can be requested via email with Council Program Assistant using [samantha.andreas@scouting.org](mailto:samantha.andreas@scouting.org).
- Group size is limited to 10 people per group. Access is restricted 9:00 a.m. to 7:00 p.m.
- A limited number of groups will be on camp at the same time. Remember to stay separated.
- Unit leaders should have Parts A & B of the Annual Health & Medical Record (health forms) on hand for each person in your group. Keep them with you. (This should be your standard practice for each meeting, outing, and campout year-round.)
- Each participant should be screened before leaving home, and then again in the parking lot before entering camp (by the unit leader). Only those who pass screening may enter camp.

### Upon arrival:

- Welcome back to Camp Miakonda! We are excited to reopen for your Scouting adventures!
- Please use the self-check-in station at Memorial Cabin front porch.
- Review all details on this form, then sign and date the bottom, and turn it in to the correct wall-mounted folder before continuing onto the property.
- If you see Ranger Brandon or Ranger Brady, please say hello & let them know about your activities. This will help them keep track of everyone on property. They also miss you.
- Several work projects are in process right now, and you may see Rangers and volunteers working in camp or driving work-related vehicles. Please be safe & courteous.

### Screening:

- Please ensure that no group members are exhibiting any of these symptoms:
  - o Temperature above 99.9° F
  - o Shortness of breath / difficulty breathing
  - o Congestion or runny nose
  - o Fever / chills / fatigue
  - o Muscle or body aches
  - o Headache
  - o New loss of taste or smell
  - o Sore throat
- If ANY group member starts to exhibit any symptoms listed above, the ENTIRE group must leave the property immediately and contact one of the Rangers for proper response.

### Restrooms:

- Only ONE group may use the restroom facility at a time. If you see another group at the restroom facility, please wait until they have exited the area.
- Use hand sanitizer before entering and after exiting the restroom facility. Properly wash your hands with soap & water while inside.

### First Aid:

- Units are responsible for their own first aid, and should have their own supplies on site. If needed, some extra supplies are available on the Memorial Cabin porch – including the automated external defibrillator (AED).
- If first aid is needed beyond what you can handle, then call either 911 or one of the Rangers – they can assist with proper response and reports.

*I confirm that all participants in my group exhibit temperatures within the recommended range and will practice proper safety guidelines and social distance procedures defined above.*
